Dear Sirs

Notification of copyright infringement

We represent the Angel Foundation. The Angel Foundation owns GOD TV, a television channel and website that spreads religious messages globally.

It has come to our client's attention that an article entitled "*Killing in the Name...*" (the "Article") posted on your website has embedded into it a video entitled "GOD TV and Jewish National Fund's Forest Of Hate" (the "Video"). Interpolated into the Video is video footage belonging to our client which was first broadcast on GOD TV's BTS and which is clearly marked with our client's (registered) trade mark (the "Footage"). Further you have partially transcribed the dialogue from the Footage and copied still photographs from it and reproduced these in the Article. The copyrights in the Footage itself and the underlying literary and/or dramatic rights (together, the "Works") were created by and vest in our client

The URL of the article in question is:
<http://www.salem-news.com/articles/december192010/god-forest-mb.php>.

This use of the Works is not authorised by our client. Accordingly, you are infringing our client's rights by copying and communicating the Works to the public on your website (and to the extent necessary you are hereby put on formal notice of the same). Please therefore confirm, by return, that the Article will be taken down (note that the Video has already been taken down by YouTube and Metacafe).

We look forward to hearing from you by return.

Yours faithfully
