Capt. Watson,

While working DSU last night, CO Coleman came in at about 10:35pm. He said he needed to talk to I/M Kimball in DSU211B. He went up to the tier and CO Story let him on the low side to talk. He talked with Kimball for about 10 minutes.

When CO Coleman came back downstairs, I asked him what was up. Coleman said, "I just finished packing up his house" and that was all he said. I asked Coleman where he was working tonight and he responded that he was working E Block. He said he needed to get back and left the building at about 10:50pm.

Seems odd that, it appears, he was down here on his own initiative. To my knowledge, he was not sent down by anyone to interview Kimball. The evasive manner in which he answered my question is what got me to thinking. Again, it just seemed odd.

Thought you should know.

Sgt C. Hinzman

Tom tonight officer Coleman came to DSU at about 1010pm. He came directly to the 2nd tier and asked to be let down the tier to talk to inmate Kimble in 211B. He had what appeared to be a post it note in his hand, so I assumed he was on a mission from someone. When I asked whets up all he said was just checking on something. When I went out for a smoke break I started thinking about it and it seemed a bit peculiar to me. When I asked the floor Sgt if Coleman had been sent by someone to DSU I was told No, not by anyone out here. Coleman was cell front for approximately 10 mins with inmate Kimble, while I was on the landing, so I have no idea what the conversation was about. I am sending this just as an FYI and so that I don't forget to let you know first thing in the AM. It just didn't feel right to me.
